New City Hall Construction

Architectural firm Brandstetter Carroll Inc. (BCI) has an office in Dallas and has more than 43 years of experience in the design of various municipal facility improvements including city halls, recreation centers, and public safety buildings. Mary Ann Mitchell, AIA, a Registered Architect, and owner of the firm has with more than 25 plus years of experience will head up the City of Hutchins project. BCI will facilitate space planning, interior/environmental design, functionality of the New City Hall and ultimately work with the City staff on the construction oversight.

The New City Hall Project, approved by Hutchins’s voters on November 8, 2022, has a design and construction costs of $10,775,000, and is anticipated to be completed within the next 24 months.

Employee Appreciation

Each year, employers across the country celebrate National Employee Appreciation Day. This is a time to thank our employees for their hard work and effort throughout the year. It started as a way to strengthen the bond between employers and employees and to remind leaders about the importance of showing employees they are valued….after all, employees are our greatest assets! This year, several citizens and organizations in Hutchins donated to make this celebration even more special. They included:

Jim Luttrell DJ McAuliffe Companies, Inc. Michael Rader Gustavo Quinonez
Hutchins Tire Shop Demarcus Odom Amer Hamdan Aurora & Felix Madrigal

Also, a special thank you to Councilmember Elmore from all of the Hutchins Staff. We appreciate all of your time and effort to help make this celebration a success. Thank you!

Get ready for Summer Reading

Join us Friday, June 2, 2023 at 4:00 PM for the Summer Reading Kickoff, and pick up your Summer Reading Log. The Atwell Public Library’s 2023 Summer Reading Program is from June 1- July 27, 2023. The reading challenge and prizes are open to children, families, and adults this year! Kid’s crafts, games, and activity days will be hosted through July. For more information follow the library’s webpage, Instagram, Facebook, or contact Olivia Daniels, Librarian, at AtwellLibrary@cityofhutchins.org, 972-225-4711.
Southern Wastewater Collection System—Update

The City of Hutchins has successfully proceeded to the construction phase of the much anticipated Southern Wastewater Collection System Project. This project has been within the design and property acquisition phases for the last several years and now will proceed with construction over the next fourteen (14) months, with all segments under construction during this timeframe. The project is separated into three (3) phases:

**Phase 1**—Lift Station (Belt Construction, contractor): A new lift station, located south of Dowdy Ferry Road and near the Trinity River floodplain boundary, which will serve the majority of the City.

**Phase 2**—Force Main (Belt Construction, contractor): A 16-inch diameter force main to the City of Dallas treatment facility.

**Phase 3**—Shoreline Interceptor (Acadia Services, contractor)

The project will provide much needed wastewater capacity to the city and allow for other capital improvements to be undertaken to ensure wastewater capacities are available for current and future growth of the city.

The combined overall cost of the project for design, land acquisition, permits and construction is approximately $17,463,000 for all three (3) phases. Funding is through bond issuance to finance the overall project.
