PROFILING
REPORT

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure for law enforcement agencies. These requirements established in 2001 require Law Enforcement agencies throughout Texas to collect racial profiling data when a citation is issued, or an arrest is made.
In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements were implemented.

In 2017, the Sandra Bland Act was passed and signed into law (along with HB 3051 which introduced new racial and ethnic designations).

HB 3051 requires, A comparative analysis of traffic stop data.

a. Evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;

b. Examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction;

c. Evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches.
This report contains three sections with information on motor vehicle-related contact data. In addition, when appropriate, documentation is also a component of this report, aiming at demonstrating the way the Hutchins Police Department has complied with the Texas Racial Profiling Law.

In section 1, you will find the table of contents, Texas Senate Bill (SB1074); which later became the Texas Racial Profiling Law. Texas HB 3389, which, in 2009, introduced new requirements relevant to racial profiling as well as the Sandra Bland Act. Also, in this section, a list of requirements relevant to the Racial Profiling Law as established by TCOLE (Texas Commission on Law Enforcement) is included.

Sections 2 and 3 documentation which demonstrates compliance by the Hutchins Police Department relevant to the requirements as established in the Texas Racial Profiling Law. These sections contain documents relevant to the implementation of an institutional policy banning racial profiling, the incorporation of a racial profiling complaint process and the training administered to all law enforcement personnel.

The last section of this report includes statistical data relevant to contacts, made during the course of motor vehicle stops and in accordance with the law, between 1/1/20 and 12/31/20. This section contains the TCOLE Tier 2 form, which is required to be submitted to this organization by March 1st of each year.

The data in this report has been analyzed and compared to data derived from the U.S. Census Bureaus Fair Roads Standard. The final analysis and recommendations are also included in this report. The findings in this report serve as evidence of the Hutchins Police Departments commitment to comply with the Texas Racial Profiling Law.
COMPLIANCE WITH TEXAS LAW

• Implement a Racial Profiling Policy citing acts or actions that constitute racial profiling.
• Include in the racial profiling policy, a statement indicating prohibition of any peace officer employed by the Hutchins Police Department from engaging in racial profiling.
• Implement a process by which an individual may file a complaint regarding racial profiling violations.
• Provide public education related to the compliment and complaint process.
• Implement disciplinary guidelines for officers found in violation of the Texas Racial Profiling Law.
• Collect, report and analyze motor vehicle data (Tier 2).
• Commission Data Audits and a Search Analysis.
• Indicate total number of officers who knew and did not know, the race/ethnicity of individuals before being detained.
• Produce an annual report on police contacts (Tier 2) and present this to the local governing body and TCOLE by March 1, 2021.
• Adopt a policy, if video/audio equipment is installed, on standards for reviewing video and audio documentation.
2020 Training Implicit Bias/Racial Profiling

All Sworn and Non-Sworn personnel have received training regarding the Hutchins Police department policy and State Law as it relates to Implicit Bias or Racial Profiling.

All personnel have received the required training set fourth by the Texas Commission of Law Enforcement Standards.
COMPLAINTS OF RACIAL PROFILING

No complaints regarding racial profiling were filed with the Police Department.

No complaints were filed by administrative staff after randomly reviewing video of traffic stops.

PHYSICAL FORCE RESULTING IN BODILY INJURY USED DURING STOP

A) Yes 0%
B) No 100%
The most recent Texas Racial Profiling Law requires that police department perform data audits in order to validate the data being reported. Consistent with this requirement, the Hutchins Police Department has engaged del Carmen Consulting, LLC in order to perform these audits in a manner consistent with normative statistical practices. As shown in table 7, the audits performed have shown that the data is valid and reliable. Further, as required by law, this report also includes an analysis on the searches performed. This analysis includes information on whether contraband was found as a result of the search while controlling for race/ethnicity. The search analysis demonstrates that the police department is engaging in search practices consistent with national trends in law enforcement.

While considering the findings made in this analysis, it is recommended that the Hutchins Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected) which may prove to be useful when determining the nature of the contacts police officers are making with all individuals.

As part of this effort, the Hutchins Police Department should continue to:

1) Perform an independent analysis on contact and search data in future years.
2) Commission data audits in 2021 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The comprehensive analysis of the data included in this report demonstrates that the Hutchins Police Department has complied with the Texas Racial Profiling Law and all of its requirements. Further, the report demonstrates that the police department has incorporated a comprehensive racial profiling policy, currently offers information to the public on how to file a compliment or complaint, commissions quarterly data audits in order to ensure validity and reliability, collects and commissions the analysis of tier 2 data, and ensures that the practice of racial profiling is not tolerated.
